

BLYTH TOWN COUNCIL

ENVIRONMENT COMMITTEE SERVICE PLAN 2022/23

The primary aim of this Service Plan is to identify the key priorities for the service in 2021/22 and to show how those activities contribute to the delivery of the Council's Mission Statement:

MISSION STATEMENT

Blyth Town Council is committed to participating fully in the development of a vibrant and growing community that will encourage business and community activity.

ROLE OF THE COUNCIL

- To promote the environmental, social and economic wellbeing of the town and its community.
- To provide high quality core services in the most effective and efficient manner which will deliver the Council's agreed priorities and objectives.
- Provide leadership and be a voice for the community in all matters which impact on the town and the community.
- To work in partnership locally and regionally to meet common goals and outcomes.

Terms of Reference – Environment Committee

The Committee will be responsible for the management, research and development of the following areas in accordance with Council policies, Standing Orders and Financial Regulations.

Day to day management of all assets e.g. play areas, allotments, open spaces, litter bins, bus shelters, flower beds and the enhancement of those services within the contract with the County Council and any other relevant contractor.

The Committee will consider and agree service standards for services within the contract and amend the contract subject to any budget requirements, so that they are consistent with the Council's priorities and objectives and provide best value for money.

The management and delivery of the Britain in Bloom and Blyth in Bloom competitions.

The annual consideration of priorities and objectives in relation to the services provided by the Town Council as well as other partner organisations and to recommend any changes in those priorities.

To work in partnership with relevant bodies and organisations in delivering the Council's strategic objectives and outcomes.

Preparation of an annual service budget, both capital and revenue, with proposals over a two year period, which reflect the Committees strategic objectives and priorities, and submitting these proposals through the Governance Committee within a timetable to enable the Council to set a fixed budget and agree a precept within the statutory guidelines.

To deliver those services in accordance with the approved budget.

To agree service action plans on service standards and outcomes to be achieved in line with its approved budget.

To monitor and review those action plans and budget performance at each committee meeting and report to the Council through the Governance Committee.

Powers delegated to the Town Clerk;

The Clerk shall be delegated to undertake the day to day management of all assets within the Committee's Terms of Reference e.g. these will include:

- Management of playgrounds and open spaces.
- Day to day management of the partnership arrangements with Northumberland County Council and other contractors.
- Let allotments, serve notices to cultivate or terminate allotment tenancies on breach of any tenancy conditions.
- Draw up a management plan for the maintenance, repair, development and improvement including proposals for charges to tenants for each of the allotment areas which will be presented to the Committee for consideration on an annual basis.
- Collect all fees and charges in connection with allotments and undertake debt recovery action in accordance with Council policies and procedures.
- Liaise with the allotment holders and their associations and to arrange any consultation or meetings with the Committee in order to ensure their participation in any proposals with regard to the allotments.

Annual Budget 2022/23

The annual budget for this committee is shown at Appendix 1. The Council also look for other funding and grant opportunities.

Description of Assets and Work Carried Out

Allotments:

The Council are responsible for 12 sites, 6 of which are managed by agreement with 2 allotment associations.

Where sites are managed on the Council's behalf, the associations allocate, inspect, serve termination notices and collect monies due. For this work they receive 25% of the income due.

The allotment sites are:

Site	Council or Association Managed
Beatrice New Gardens	Council Managed
Beatrice	Association Managed
Bebside	Council Managed
Council New Gardens	Association Managed
Cottage Gardens	Association Managed
Delaval Gardens	Council Managed
Laverock Place	Council Managed
South Farm	Association Managed
Tenth Avenue	Council Managed
Twenty Third Ave	Association Managed
Wensleydale	Council Managed
Winship	Association Managed

Bus Shelters:

The Council are responsible for 91 shelters.

CCTV:

The Council have installed CCTV systems in 7 Play Areas and in the Market Place in accordance with Council policy and have 11 deployable cameras to cover areas of concern e.g., vandalism.

The Council have officers who are authorised to view the images from these systems, should they so be required in line with our registration with the Information Commissioner.

Litter Bins:

- The Council are responsible for 442 bins.

Play Areas:

- The Council are responsible for 17 areas.

The Council revised their refurbishment programme last year and the play areas are:

South Beach Play Area	2022/23
Isabella Skate Park	2022/23
Kitty Brewster	2023/24
Millfield Gardens	2023/24
Axwell Drive	2024/25
St Johns Muga	2025/26
Briardale	2027/28
Cottingwood Green	2028/29
Isabella Skate Park	2029/30 Remove
	2030/31
	2031/32
	2032/33
Mulberry Close & Fitness	2033/34
Burns Avenue	2034/35
Bowes Street	2035/36
Newsham	2036/37
Laverock Place	2037/38
Lindsey Ave	2038/39
North Farm Play Area	2039/40
Olga Potts Play Area at Ogle Drive	2040/41
Broadway	2041/42

Public Seats:

- The Council are responsible for 133 seats which may increase during the year as a result of Committee approvals.

War Memorials:

- The Council are responsible for 4 memorials. These are in Ridley Park, Cowpen, Newsham and Elfin Walk.

Inspection Regimes:

An agreed inspection regime is in place for each type of asset based upon an evolving risk managed process. Shown in the appendices attached, 2 to 3, are examples of the templates used for the work carried out on each visit as well as the planned programme of visits to satisfy the Council's responsibilities, appendix 4. These programmes reflect the work of both the Council and NCC.

With regard to the inspection work carried out by Blyth Town Council officers, the target is 100% and we have once again achieved this.

The inspection regimes include inspecting NCC work in accordance with the elements of the Partnership Agreement. These inspections will be recorded electronically on an application called Total Mobile and will be sent directly to Senior Managers and Team Leaders at NCC. The results of these inspections will also be included in the Partnership Weekly progress report which is forwarded to BTC. BTC Officers have programmed into the Service Plan to carry out a minimum of 3 Partnership weekly inspections in each of the 3 designated areas across the Town.

Once each inspection has been carried out the respective documents are completed, where necessary photographs taken and works orders issued. These are then stored in the appropriate folder on the Council's shared drive.

After each inspection is carried out records are also updated which show performance management figures.

The inspection work also includes where contractors are employed for specific work.

NCC Partnership Agreement 2019-2024

This agreement which commenced in April 2019 covers an enhancement to the core services delivered within the town.

NCC have a workforce dedicated to work within the town and their main responsibilities are:

The weekly inspection and cleanliness of play areas, maintenance of open spaces, emptying litter bins, monthly cleaning of bus shelters, cleaning of public seats, upkeep of flower beds and the enhancement of those services within the contract.

A Partnership Working Group of Councillors and officers from the 2 Councils is also in operation.

Within the Partnership Agreement there are a list of services provided and the frequency of carrying out these.

This is the third year of this new agreement and we are still experiencing the difficulties that the Coronavirus situation has brought, albeit it much less than last year thankfully. At this stage NCC are still carrying out all aspects of the partnership agreement although certain operational and organisational tasks have been revised for health and safety reasons. All seasonal staff are in place. NCC did extremely well in providing continued services throughout last year.

NCC will provide the normal updates for circulation and the officers will be working closely to highlight where there may need to be operational changes considered.

Environmental Enforcement

The Council has a Service Level Agreement with NCC to provide an enhanced enforcement service within the town with the addition of 1 full time equivalent officer.

Priorities 2022/23

The Committee has agreed a plan to date for this year in which the outcomes will help fulfil our vision for Blyth and for those who wish to live, learn, work and play here, whilst ensuring the area is served by a constantly improving Council.

The Council will focus on the delivery of a specific set of projects over the next year. These priority projects have been determined, alongside managing the day-to-day delivery of core services. Council officers through a variety of processes e.g. inspections carried out, proactive work and feedback are able to provide ideas and initiatives to the Committee.

It is recognised that although projects are planned and agreed that because of circumstances that prevail these plans may need to be reprioritised. The service needs to be responsive to circumstances as they see fit.

The inspection regime for the early part of 2022/23 across all assets and identified areas are being carried out in line with the inspection programme.

These projects listed below are in addition to the work we carry out within the Partnership Agreement in enhancing the town:

Allotments:

The allotment budget for 2021/22 and 2022/23 have been combined to carry-out the repairs following Storm Arwen in November 2021 to boundary fences on the following sites Bebside, 23rd Ave, Beatrice, Wensleydale and Bolam Allotments where the most damage was encountered. The repairs to the perimeter wall on this site will be completed by Mid-June 2022.

We have found out because of the extensive damage caused the trees that caused the damage were the property of Blyth Town Council. We are also aware now that a further 49 trees on Ford Drive are also assets belonging to Blyth Town Council. Committee have agreed following a report to have 6 of the trees on Ford Drive removed and this work will be carried out in the Autumn following the leaf fall.

Bus Shelters:

A Cant-lever style bus shelter was damaged during Storm Arwen on Wensleydale Terrace and was removed in late May 2022 and replaced with a new one.

Litter Bins:

Work in this area continues to be monitored to ensure that adequate facilities are available for the public and that suitable collection facilities are in place.

Several bins were added to the Asset register near to the Dave Stephens centre which have photos on them that were received from residents following a request from Cllr Carr who supplied the bins.

The frequency of emptying document has been updated and agreed between the teams that carry out the emptying and officers. This helps when we receive reports of bins being full the list can be checked for the days

Seats:

Two seats have been supplied by Councillor Potts in memory of his wife and Town Councillor O Potts who passed away last year.

Two additional seats were ordered from Ogilvie's in recognition of the amazing work that the NHS staff carried out during the pandemic. When the seats arrived the two seats in that location were removed and replaced back into stock, the NHS seats were installed in place of them.

Seven Rainbow seats are being ordered to replace those around the boundary of Morrisons car-park and these are made of recycled plastic and these are being funded from the Ward and County Cllr Nisbet for Croft Ward from her NCC MLIS funds.

Play Areas:

Bowes Street

Committee have agreed to change the surface of the play area from play chip to wet pour and this was completed in June 2022. The play chip from this play area was distributed between the others that have the same surface and the levels were built up.

The Council sought competitive quotations for this scheme and Play & Leisure Ltd were the chosen contractor at a cost £40,000 which is under the budget we had set initially.

South Beach Play Area

Committee also agreed to the refurbishment of this play area within the councils refurbishment programme.

The Council sought competitive quotations for this scheme and Kompan were the chosen contractor at a cost £51,806.09 which is under the budget we had set initially.

Within the Tender Document it was specified that the work was to be carried out between mid-September to Mid- October to ensure completion before the school holidays. Kompan have contacted BTC with a request to start on Monday 5 September 2022 which has been agreed as the school children return on that date. This date has been amended to 15 September 2022.

Speed Sensors:

The Council now manage 17 Speed sensors within the Town and share this information with the Police and NCC Highways where enforcement in problem areas can be carried out. Monthly data is also available to view on the Blyth Town Council website.

Town Centre Schemes:

Bowes Street (BTC/NCC Scheme)

This Scheme is included within the Northern Gateway Scheme and the Bowes Street element is Phase 1 of the project. The original scheme that was drafted by Northumberland County Council has been changed significantly and the new design includes new surfacing incorporating coloured block paving. The amount of parking has been increased within the scheme and designated cycle lanes are also incorporated into the lay out. The street furniture will also be changed to encourage people to gather and sit and relax, the street lighting is of a different design specification which will allow for festive lighting to be strung between the columns.

Sculpture x 7

Councillor S Davey had a sculpture fabricated to reflect the ship building industry on the river and this will be installed on the bend between Regent Street and Hodgson Road known as Shipyard Corner.

Councillor G Davey had a sculpture fabricated on a mining theme to be located on the grass area opposite Asda.

County Councillor is having a wood sculpture carved by Mr Tom Newstead's who carved the Miner and this one will be on a Nautical theme in the grassed area in front of Ship Yard Flats.

Seasonal Bedding and Planters

The varieties of herbaceous plants in the beds around Broadway Circle have been removed and are being replaced with varieties that will give more colour in the summer months. Additionally, the beds in the centre of Broadway Circle are going to have additional Herbaceous bedding planted that are better suited to being in a shaded location.

The wildflower beds along Rotary Way will need to be resown along additional beds have been added along Broadway field. Additional beds have been added along Chase Farm Drive and the Kitty Brewster gateway entrance.

Summary of Work in 2021/22

During the last year our main achievements were:

Inspection Regimes

Improving the inspection regime and documentation.

The agreed inspection regime was in place for each type of asset based upon an evolving risk managed process. The inspection regime for 2021/22 across all assets was carried out in a different way during the pandemic. Allotments and Play areas were carried out under the normal inspection practices.

The inspections carried out included inspecting NCC work in accordance with the elements of the Partnership Agreement. BTC Officers were introduced to recording works carried out by NCC Core and Partnership teams on a handheld device in early May 2019. These inspections were recorded electronically on the Total Mobile Application with inspection reports sent directly to Senior Managers and Team Leaders at NCC. The results of these inspections were then included into the Partnership Weekly progress reports forwarded to BTC. BTC Officers then had scope to carry out a minimum of 3 Partnership weekly inspections across each of the 3 designated areas across the Town.

Tree Planting at Meggie's Burn and other locations

The Town Council purchased 2000 saplings which have been planted in conjunction with the Partnership Team, on the stretch of grassed area between Links Road and Meggie's Burn.

NCC have overseen the planting and locations for the native trees and the fruit trees for the Precinct Planters to go in the Town Centre and along the Quayside. Additional Precinct Planters and Tower Planters have been purchased to be placed in other areas of Blyth.

Seats

New seats were installed on the entrances to Walton Avenue, and opposite Sure Start.

Play Areas

The refurbishment and layout of the Broadway Play Area was completed in 2021/22 along with the access path and additional rails being installed along the footpath. The play area completion took longer than anticipated but is now being used by the children travelling to and from school.

Allotment Rents

The invoices for the annual rents in 2021/22 were collected in the usual timescale unlike the previous year. Payments were received by BACS, electronically and a number by cheque we still received a small number of cash payments.

Allotment Projects

Storm Arwen caused damaged on a number of sites Bebside, Beatrice and Twenty Third Ave required new posts and this work was completed in January / February 2022. The damage to the Concrete wall on the Bolam Site was more serious and the posts had to be especially made and this resulted in the repairs taking longer to be completed.

Bus Shelters:

Storm Arwen was also responsible for the canopy being blown off a shelter in the Wensleydale Ward. The replacement shelter was ordered and material availability also caused a delay in the replacement being installed.

.

Litter Bins:

Over the course of the year, we have installed 25 new bins in various locations around Blyth and we continue to look at new locations and install where practical.

Bulb Planting/Wild Flower Mix

Additional areas on the gateway entrance at Kitty Brewster and Chase Farm had wild flower mix seed spread on designated beds as agreed and an area along South Newsham Road has been sown with a pollinator mix.

Additional Planters

Planters and precinct planters that were purchased for the completion of Bowes St have been re-sited around the High Street car-park. Additional Barrier Planters were purchased to extend the displays on the barriers at Kitty Brewster and on the South Beach Gateway Entrance.

Poly Tunnel

NCC had room at Stakeford for an additional polytunnel which is funded jointly by NCC and BTC to accommodate the bedding for all the additional planters. This has helped to produce plants of a stronger and better quality which will produce better floral displays in the various planters. Additional resources have also been agreed with NCC to facilitate the maintenance of these once in situ.

Use of Web Site

The web site is used to promote/provide updates on the services we carry out and allow the public to provide the Council with e.g. information, requests for service and complaints etc.
